

Pacific Forest Rally 2018
Bulletin #1
18 September

Shakedown/Media/VIP Rides Stage:

As per the supplementary regulations, there will be an optional shakedown stage on Friday, between 13:00 and 15:00, using a twisty 2km side-road (dead-end) off Mab Lake Road. This is open to all teams, and will run on a first-come first-served basis. Some teams may be asked to provide a ride-along to a media or VIP. There will be a sign-up sheet at registration for teams to signal their intent to participate.

Arrival at Parc Exposé:

All teams must be in Parc Exposé by 16:30, however, in order to facilitate getting all of the cars staged in order, we ask that teams arrive at the entrance to Parc Exposé as follows: cars 1-10 please come between 16:10 and 16:15, cars 11-20 between 16:15 and 16:20, cars 21-30 between 16:20 and 16:25 and cars 31+ between 16:25 and 16:30. Fines will only apply if a team is not present by 16:30.

Remote Refuel:

Remote re-fuel will be available at the following locations on Saturday's route, to any teams not contesting the Eco Challenge: 28.7km into the transit to SS5 (i.e. on your way to the first stage of the day), and 34.7km into the transit to SS10 (i.e. between the two runs of Spius).

Service:

Service spots can be picked at registration on Thursday. Teams that have made specific requests to service together will have been assigned locations already.

Re-Start Times:

Teams who have retired and then indicated to the Clerk of the Course their intention to re-start must present themselves for scrutineering at the out control of service at the following times:

Start of day 2: 9:00

After Service 2: 12:15

After Service 3: 15:00

RallySafe:

Teams are reminded to review the RallySafe information available at:

http://www.pacificforestrally.com/archives/2016/RallySafe_Instructions.pdf

Make sure to have 12v power available in the car for RallySafe. Install kits will be made available at registration and are expected to be in the car for Technical inspection.

Notes on the Stages:

For the benefit of anyone reusing notes from prior years, please note that Swakum is identical to 2017, Kirby is the same up to 11.3km, and then turns onto a new road for the final 2.3km. The first 2.7km of Helmer is new, then it joins the 2016 version at the old spectator junction (1.2km in the 2016 version). Comstock In uses parts of the Comstock-Kane stage from 2014, but with a different beginning, and ends before the powerline section. Comstock Out is the reverse of Comstock In. Spius is identical to 2017.
